GUNMAKERS

Lesson Options – 2012

Gun Fitting

A one hour lesson to establish correct gun fit and individual measurements. The lesson will include analysis of your gun mount and shooting position, including coaching where necessary.

Shooting Lessons

Clay Novice Lesson: Whether just starting in the sport or shooting regularly at club and national Andrew can provide an introduction to each discipline and the techniques used.

Clay Advanced level: Ideal for the individual looking to take their shooting to the next level. Andrew brings a formidable level of experience to every coaching session having represented England since 1980 at Sporting, Skeet and Trap. Tailored to your personal needs, the lesson will look at the techniques specific to each discipline.

Game Shooting: Whether a pre season warm-up, looking to improve ones overall performance or looking to master the most challenging high birds in the field, Andrew will tailor a lesson to your needs.

Instruction in the Field: In addition to lessons, Andrew will accompany and coach a client during a days shooting. This is ideal for a novice who may be attending his first day or for the more experienced gun who wishes to iron out bad habits that can occur in field conditions or help with more challenging drives.

Young Shots (under 18)

When starting any sport learning the correct technique from the start is the key to enjoying long term success. Andrew has introduced many young shots to the sport and sees learning the basics correctly as the key. Lessons will focus on safety, gun handling and establishing the correct mount along with the fun part of hitting clays. A lesson or course of lessons will make a great Christmas or Birthday present.

Groups & Courses of Lessons
